General Maurice's Charges.

Deplorable as was the publication of General Maurice's letter from every standpoint of decency and discipline, it has had one most valuable result. "Let us have an end of this sniping," said the Prime Minister yesterday, after he had pulverised the Radical attack. We think that we shall have an end of it now—not, perhaps, because the mere politicians will be ashamed to renew it, but because they will be afraid. General Maurice's letter made three grave charges of mis-statement against the Government. They affected the Government's fitness to prosecute the war, but the Radical Press regarded them solely as material for a political victory in the House of Commons. It rushed with glee to the work of making things difficult for Mr. Lloyd George, careless of the certain results of such controversy on the spirit of our Armies and on public opinion in Allied countries. The Government declared to submit the whole matter to swift and impartial inquiry by two of His Majesty's judges. The Radicals thirsted for a full-set drama in the House of Commons, and demanded, through their leader, an inquiry by a Select Committee of the House of Commons. We cannot acquit Mr. Asquith of serious blame. He said yesterday that his motion was not intended as a vote of censure, that he was not hungry for the sweets of office, and that he was concerned only for the honour of Parliament. In effect, as the Prime Minister showed, the motion was a direct vote of censure. If it had been accepted, the Government's resignation would have been inevitable, and Mr. Asquith, as author of the motion and leader of the Opposition, must have accepted the task of forming a new Government. To suppose that one of our oldest and ablest Parliamentarians was ignorant of these things would be ridiculous. Mr. Asquith was ready to bring down the British Government at the most critical moment in the whole history of the war.

The Prime Minister decided to stand or fall by his personal explanation to the House of Commons—with the result that the House has given the Government a vote of confidence by an overwhelming majority. In spite of the enormity of General Maurice's offence against discipline and the almost incredible rashness of his accusations, we feel a little sorry to-day for that unfortunate soldier. Mr. Lloyd George tore his three charges to tatters, and left the General's most ardent supporters wondering how they ever came to be made. The most important of them concerned the extension of the British front in France, and Mr. Asquith's motion compelled the Prime Minister to reveal matters of the utmost delicacy regarding the relations between the High Commands of Great Britain and France. We think that the less said about these the better—especially as the whole situation has been changed by General Foch's recent appointment as Generalissimo. Mr. Bonar Law had said that the extension of our front in France was not discussed by the Supreme War Council at Versailles. General Maurice gave him the lie direct, and added: "I was at Versailles when the question was decided at the Supreme War Council." He was, indeed, at Versailles, but he was not present at the Council, as his statement seemed to imply. The French High Command urged the extension of our line in France, but, as Mr. Lloyd George showed yesterday, no attempt was made to over-ride Sir Douglas Haig's authority, either by the Cabinet at home or by the Council at Versailles. General Maurice's other charges collapsed even more miserably. The Prime Minister's statements which he impugned were made in the House of Commons on the 9th April. Incredible as it may seem, one of them was based on figures which General Maurice himself had supplied, and it was afterwards confirmed in an answer, prepared by him, to a Parliamentary question. The other was made, in the first instance, at a Cabinet meeting at which General Maurice was present. He did not contradict it then; his "That is not correct" was reserved for his letter to the Press. The letter was described ignominiously in the Radical newspapers as a "bombshell." To-day they must change their metaphor: it has proved to be a boomerang.

The country is sick and tired of the succession of wretched intrigues with which, in recent months, a gang of politicians has hampered the progress of the war. In some cases mere personal ambition has been at the bottom of them; in others mere personal hatred of Mr. Lloyd George; in others distrust of the policy of united military control. The latest and most scandalous of these intrigues must also be the last of them. When Sir Edward Carson called upon the nation yesterday to close its ranks he expressed not only a national need, but a national command. Mr. Lloyd George has many faults; but at this moment he is our only possible Prime Minister. Certainly the Government will not supersede him in favour of Mr. Asquith—who, by the way, seems to have forgotten the notorious speech about shells which he made at Newcastle in the spring of 1915. We want faith, courage, energy, and driving-force in our Prime Minister. Mr. Lloyd George possesses them in greater measure than any other statesman of our time, and for their sake we can forgive much. We want, above all things, to beat Germany, who, at the very hour when Mr. Asquith was trying to give the Government a mortal blow, was crouching for her most formidable spring on the western front. It is intolerable that at such a time the Government should be worried, the country enraged, our Allies saddened, and our enemies encouraged by intrigue and recrimination in the very heart of the machine of government. Somebody interrupted Mr. Asquith's discourse yesterday with the remark, "Get on with the war," and he replied that "misunderstandings and misconceptions" must first be cleared away. We do not admit the necessity. The political scavengers will have plenty of time for their activities when the war is won. To-day the whole nation must concentrate on the work of victory, and must do its best with the instruments at the hand. Unless we mistake its temper, it will have small mercy on any who dare to distract it from its supreme task.

The Fighting at Ypres.

The French Press is discussing the likelihood of the evacuation by the Allies of the Ypres salient, but the course of the fighting on the Flanders front during the past two days does not suggest it. The retention of Ypres is a sign of confident strength; for the shape of the salient round the ruined town offers the Germans a standing inducement to attack, and their success in attacking would render subsequent operations a very difficult question. On the other hand, to offer the enemy inducement to attack and to repel them with loss is in accord with the whole strategic design of the Allies in the present phase of the battle. We may infer from the fighting of the past two days that the Allied commanders conceive themselves to be able without undue risk to offer this inducement; for the risk to the enemy; and if the development of the general situation in the future should render the evacuation of Ypres advisable, to effect that evacuation on their own initiative and not under duress. The salient is everywhere overlooked from the heights of Wytschaete and Kemmel in the south. Its main road and railway communication, from Poperinghe to Ypres, runs parallel with the southern face of the salient. On that face the enemy have the advantage of attacking from the high ground against the defending line below them. If they can carry that line and penetrate to the Poperinghe-Ypres road, only three miles away, they must almost certainly cut off any forces in and east of Ypres, and stand a good chance of effecting a breach in the Allied front. It was against this that the line that the enemy delivered the main weight of their attack in their great attempt to crush in the Ypres salient on Monday of last week. Since that heavy defeat they have made no new attempt until Wednesday. The attack began on that day, and renewed yesterday, can scarcely be regarded as a re-opening of the offensive in force. It appears to be rather in the nature of a local operation designed to test the strength of the Allied defence. The Germans can scarcely have derived much satisfaction from the test. The attack on Wednesday was delivered with troops of two divisions on a four mile front between La Clytte and Voormezeele. The latter hamlet is a little more than two miles due south of Ypres; the former about five miles south-west, just below the Scherpenberg height, the most easterly of the still-unconquered heights of the ridge line. On the front between these points is the junction between the British and the French forces. The attack, pressed with determination, made a good deal of progress during Wednesday, but counter-attacks organised before nightfall drove the Germans back from all the ground gained, and completely re-established the positions originally held by the Allies. The renewed attack yesterday suffered the same fate. Whether, after this experience, the enemy will make another attempt in force against the Ypres salient remains to be seen. Their renewed activity in Flanders suggests that their next great endeavour may be made on the southern front rather than in Flanders.

The Luxury Tax.

In his Budget proposals the Chancellor of the Exchequer tentatively included a tax on luxuries. The definition of luxuries was left to a Committee of the House of Commons, which was entrusted with the task of drawing up schedules. These, if the French precedent were followed, should include articles in themselves raised at luxuries, and articles so raised if over a certain price. The Commons Committee, taking advantage of the unusual powers specially conferred upon it by the House, has now decided to exempt as members were ladies who represent many various phases of feminine activity. In proposing the luxury tax Mr. Bonar Law based his action on the French precedent. It is remarkable that, just at the moment when the British Committee is getting to work, a strong agitation should be developing in France against the tax. The Chamber is now in possession of a definite proposal by a Paris deputy to abrogate it. Whatever may happen in France, however, is not likely to react seriously upon the British proposal. When this proposal is offered as a justification of the luxury tax those who oppose it in France imply that the conditions are entirely different. MM. Worth and Poquin declare that the tax—on account of its vexatiousness rather than of its amount—will accustom foreigners to keep away from Paris and to transfer their patronage to other capitals. The same point is urged in connection with picture sales, which draw crowds of foreign buyers to Paris. Whatever these objections may be worth, they have no validity in the British case. London as an industrial city does not depend on luxury for a living as does Paris, the unquestioned "luxury" capital of Europe.

THE SILVER SHORTAGE.

MORE LIGHT ON THE CORK SHIPMENTS.

It transpired yesterday that the Cork Harbour Board's report regarding the export of silver was erroneous. The shipments were ingots of nickel silver and copper cast from pieces of metal which were wrecked. The theory that the shipments were bullion, and were responsible for the scarcity, is regarded as absurd in banking circles as an absurdity. Shipping officials state that, as far as manifest declarations of lading show, the silver in specie was not passed out through the port of Cork. The silver shipped from Cork during the past nine months, it is stated, was not liable to pay 60 per cent. Less under the Treasury shipping conditions.

SHIPMENTS FROM DUBLIN.

At the meeting of the Dublin Port and Docks Board yesterday, Alderman Byrne inquired as to the amount of silver that was exported via the Port of Dublin during the past six months.

The Chairman said he could not give that information right off.

Alderman Byrne said that the Cork Harbour Board had kept a record of the silver exports, and he saw no reason why the Board should not have similar information at its disposal.

The Secretary said the information could be obtained from the Collector of Port Dues, and it was ordered that a report on the subject be laid before the next meeting.

GOVERNMENT CHARGED WITH HOARDING.

At the meeting of the Claremorris Board of Guardians on Wednesday Mr. J. F. Coyne characterised as false the insinuation that the silver of the country was being hoarded by the well-to-do people, and expressed the conviction that the hoarding was done by the banks and post offices.

Mr. Nally—The Government, who took all the gold a couple of years ago, are now responsible for the silver shortage.

Mr. Godfrey—The silver is not in the country, for I have known old age pensioners to go for miles every week looking for half-crowns before they could draw the pensions—the notes.

Mr. Delany said that the Government agreed to the issue of five-shilling and half-crown notes.

The Government were requested to release the silver they had hoarded up, or business in the country would be paralysed.

Ordinarily the General Post Office in Newry receives between £800 and £900 in silver every week from the Bank of Ireland to pay old age pensions and military and naval separation allowances. This week they only received £60. Arrangements, however, have been made by the bank to overcome the difficulty.

LIEUTENANT-GENERAL SIR BRYAN MAHON.

The resignation of Lieutenant-General Sir Bryan Mahon from the position of Commander-in-Chief of the Forces in Ireland was announced by himself at the opening of a new Soldiers' and Sailors' Home in Dublin yesterday afternoon. Sir Bryan Mahon said that it was with the greatest regret he was leaving Ireland.

LORD FRENCH'S SUCCESSOR.

I understand, says our London Correspondent, that General Collier, with the rank of Field-Marshal, will probably succeed Lord French as Commander of the Home Forces.

THE LATE SERGEANT SOMERS, V.C.

(FROM A CORRESPONDENT.)

The death of Sergeant James Somers, V.C., Royal Inniskilling Fusiliers, was reported at his home at Coagh, Cookstown, on Tuesday. He was already in the service of his King and country in 1914, and therefore took part in the glorious retreat from Mons, in the battles of the Marne and Aisne, and the first battle of Ypres. He also took part in the retreat from Mons, in the Dardanelles, and for his extreme gallantry in the Landing (making a single-handed attack on the Turks) at Gallipoli he received the Victoria Cross. Returning again to France in the various fronts, he received so many good conduct stripes for separate acts of gallantry that he was granted, and very deservedly, a commission in the field. Subsequently he was gassed, and very severely wounded, and his health finally declining until, in his 24th year, this brilliantly young career terminated with the utmost suddenness.

Those who were privileged to know Sergeant Somers can testify that he bore himself at all times with the same cheerfulness and unselfishness and courage that he displayed on the battlefield. He was the rare possessor of the Victoria Cross, coupled with a personal modesty and manner that endeared him to all with whom he came in contact.

ST. PATRICK'S CATHEDRAL—MENDELSSOHN'S "ELIJAH."

The performances of "The Elijah," to be held in St. Patrick's Cathedral, Dublin, on next Tuesday evening, will be in aid of the Royal Dorothy Fusiliers' Prisoners of War Fund, which is one of the most deserving of all the funds in connection with the war. As time goes on the necessities of this object become greater. It appears to us to be a matter of urgency that it should be well to realise what these necessities are. Each prisoner costs the committee £5 10s. a month for parcels sent out, or, roughly, £66 a year. There are about 500 Royal Dublin Fusiliers' prisoners of war in German camps. The cost of these alone is enormous, and the committee are nonetheless at their wits' end to find the necessary expenses. It is hoped that the performance in the Cathedral next Tuesday will be a record one. The principal soloists will be Madame Boyd, Mr. Hughes, Miss Kathleen Carey, Mr. Kenneth Greer, Mr. Thomas Marchant, and Mr. Charles Kelly. Madame Boyd will sing the part of the Widow, and Mr. Greer will sing the part of the Prophet Elijah. Ticket holders will be admitted by three gates—the south-west gate, the north-west gate, and the Patrick street gate. The Dean's seat will be in the Patrick street gate. Applications for tickets to these can be addressed to the honorary secretary, Dr. Mary Manning. Dr. Manning will conduct the choir, and Mr. William Hopkins will be at the organ.

POTATO PRICES.

It is announced that the issue prices of potatoes for the present season will be as follows:—From May 1st to June 30th, £15 per ton; from July 1st to the end of the month, £16 per ton; from August 1st to the end of the month, £17 per ton; from September 1st to the end of the month, £18 per ton; from October 1st to the end of the month, £19 per ton; and from November 1st to January 1st, 1919, £20 per ton.

THE WHITSUNTIDE FAIR.

The Grand Whitsuntide Fair in aid of the Red Cross and St. John Ambulance Societies in Ireland, and the Irish Prisoners of War and other funds will be held at the Royal Hospital, Kilmainham, from Saturday, May 18th, to Saturday, May 25th, inclusive. During the fair Mr. Gilbert Campbell, the well-known organiser of the Irish Guards' concerts, will give a series of concerts in the Great Hall. The organisation of the fair has been progressing for some time, and the arrangements for opening on the 18th inst. are well in hand, and everything promises to be a great success.

LONDON CORRESPONDENCE.

59 FLEET STREET, LONDON,
Thursday Noon.

The House of Commons was well filled this afternoon when the Speaker took the chair. The Peers' Gallery began to fill directly afterwards, the Archbishop of Canterbury occupying the front seat over the clock. In the Distinguished Strangers' Gallery Mr. Hall Caine was a noticeable figure. The Strangers' Gallery was packed; service men predominated, and a number of bandage heads and arms showed that these were wounded present. The Ladies' Gallery was also well filled.

On the floor of the House the excitement was tense. The members clustered so noisily that it was difficult to hear what Ministers were saying. In reply to Mr. Ronald McNeill, it was stated that a man had been arrested in Ireland who had been put ashore from a German submarine, and that he was now in the Tower. Bonar Law informed Captain Carz Gomez that the War Cabinet had not considered Sir Horace Plunkett's proposal, made in his recent letter, but their policy concerning the seizing up of responsible governments in Ireland would be disclosed in due course. Later Mr. Bonar Law informed Mr. Asquith that the Home Rule Bill will not be introduced before Whitsuntide, and that the House will adjourn on Thursday next until the 28th.

The Prime Minister entered the House, at twenty minutes to four, loo

ROYAL MUNSTER FUSILIERS' COMFORTS FUND.

Miss Riesenthalsett is having a stall in aid of these at Naval and Military Fair, Carrickmines, June 27th, 28th, and 29th, and will be grateful for contributions of those of China if sent her a week before date of Fair, to Carrickmines Croquet and Lawn Tennis Club, Carrickmines, or for subscription, no matter how small, sent her new to Ballsbridge, Trainer.

MADAME ROCK'S PUPILS' MATINEE.

For the ninth year children trained by Madame Rock gave a performance at the Gaiety Theatre, her matinee to-day, at the Gaiety Theatre. The character of the dancing, and the evident enjoyment the children derived from it formed eloquent testimony not only to painstaking care in teaching, but also to the ability of Madame Rock and her staff to develop even in the youngest children a love of rhythm and the right expression through the dance. A very full and varied programme included a Japanese Butterfly Ladies' Chorus, Bonbonde Dance, and various other nonsense choruses, and a Continental cafe scene, and the fairy dances in Bluebird. The staging and design of costumes produced some extremely original effects, and the Japanese scene, in particular, was most pleasing to the eye and ear. Among the individual successes Miss Rock's pets are remarkably humorous manner and stage ability of Clifford O'Farrell, especially in the characters of a Japanese, a messenger boy, and that of Charlie Chaplin. Master O'Farrell has more than ordinary gifts in that line, and his performance would be worth seeing if only to see his study of "Charlie," Miss Flo Rock, also in her impersonation of a "Johnnie" showed quite considerable acting ability, and another very creditable performance was that of "Little Bridget Flynn," by Betty Mahaffy and Derek Morris in the recitation "I'm going to be an Artist." Nita Child made very good dancer and toiling with great success. Among the many others Eileen North is one that she has a voice of pleasant quality. In the ring, Miss Doris Rock's dancing was of exceptional grace and ability. Solo dances were also given by Misses Singleton, Kita North, Ivy Whitestone, Eileen Rock, Kathleen Kearney, Joan Kelly, Rock, Mollie Kearney, Mona Mollie, Eileen North, Evelyn Fitzpatrick, Sylvia Rock, Henrietta Lanagan, Nora Fitzpatrick, and the dances by Pastor Kavanagh and Kitty Geary, Mervyn Agnew and Moira Geary, Mollie Kearney, Eileen North and Mollie Kearney, Billie Jermyn and Charlie Dutton, Evelyn Fitzpatrick and Nancy Rock, Doreen Whitestone and Joan Kelly also took part in the dances. Irene Wynne, Jr., and I. Bevan in Highland Fling, and Miss Bagnell, Stella Boland, Eileen Boland, Master Derek Rock, Nita Child, E. Geoff, B. Cole, Nita Child, Eileen Child, Pat Geoff, Miss Doris Rock, Doris D'Alton, Miss Dempsey, I. Donnelly, Miss Dempsey, Local Kevin, Local Kevin, Miss M. Farrelly, Baby Farrelly, Dollie Hamill, Eileen Wentz, Master Hamilton, Master Eileen Wentz, Master Hamilton, Master Kavanagh, R. Kelly, Kathleen Geary, Una Keogh, Nan Kinsella, Margaret Geary, Miss Purcell, Miss Quinn, Kathleen Hunter Ward, Eileen Warnock, and many others.

MR. LLOYD GEORGE'S TRIUMPH.

(CONTINUED FROM COLUMN 6, PAGE 5.)

and we acknowledged that something of that sort should be done to meet the French demand. There was no doubt in the mind of anyone that we would have to take over that part of the line held by General Antoine's Army. What further extension there should be was in doubt. We felt that the time and extent must be left to the two Commanders-in-Chief to settle together—that no extension was possible until the offensive was over, and that the line to be taken over must depend upon the military policy of 1918, and the role assigned to each Army. That was a sound proposition. The Cabinet accepted that, and never departed from these principles during the whole of the negotiations. At one time the Field-Marshal was under the impression that the Cabinet had taken that decision without his consent. Upon that the Chief of the Imperial Staff sent a memorandum to the War Cabinet, which was considered at a conference held at Boulogne in September for another purpose. The question was then raised by the French Prime Minister. I was not in the least prepared for it, and I told Sir William Robertson that it was a matter that he must deal with, and he laid down those principles of which the Government approved.

SIR WILLIAM ROBERTSON'S POSITION.

When Sir W. Robertson discovered that the Field-Marshal was under the impression that we had come to a decision without his consent, he sent the War Cabinet a memorandum, in which he said—

"At the recent Boulogne Conference the question of extending our front was raised by the French representatives. The reply given was that while, in principle, we were, of course, ready to do whatever could be done, the matter was one which could not be discussed in the absence of Sir Douglas Haig, or during the continuation of the present operations, and that any decision must also be had to the plan of operations for next year. It was suggested that it would be best for the Field-Marshal to come to an arrangement with General Pétain, when this could be done. So far as I am aware, no further formal discussion has taken place, and the matter cannot be regarded as decided. Further, I feel sure that the War Cabinet would not think of deciding such an urgent question without first obtaining Sir Douglas Haig's views. I am replying to him in the above sense."

That was, I think, on the 18th of October. The War Cabinet fully approved of that communication. Sir Douglas Haig communicated, and said that that threw a new light on the Boulogne decision.

A RIGHT TO COMPLAIN.

I think we have a right to complain of the way in which it has been rumoured abroad that Sir Douglas Haig protested. The fact that Sir William Robertson had explained, and that Sir Douglas Haig had stated that the new light has been repeated. (Hear, hear.) That is how the misdeed is done. (Cheers.)

THE WAR CABINET'S DECISION.

On October 24th this question was first formally discussed by the War Cabinet. There was further pressure from the French Government, and Sir William Robertson gave his views as to the line which the British Government ought to take, and this conclusion is recorded in the minutes of the War Cabinet, as follows—

"The War Cabinet approve the suggestion of the Chief of the Imperial Staff, that he should reply to the French Government that Sir Douglas Haig's views on the following scale: 'The War Cabinet are of opinion that in deciding to what extent British troops can take over the line from the French, regard must be had to the necessity of giving them a reasonable opportunity for training and, generally speaking, during the winter months and to the plan of operation for next year; and, further, while the primary offensive consideration will not be possible to commence taking over more line. Under these circumstances the War Cabinet fear that until this policy is settled it will be premature to decide finally whether the British front is to be extended by four divisions, or to a greater or lesser extent."

That resolution was communicated to Sir Douglas Haig by Sir William Robertson, who never departed from it. After that came the Cambrai incident, and the Italian disaster, which necessitated our sending troops to Italy. That made it difficult for the Field-Marshal to carry out the promise he had made to General Pétain for a certain extension of the front. Then the present French Prime Minister came in, and he is not a very easy gentleman to refuse. He was very anxious that the British Army should take over the line. We stood by the position that that was a matter to be discussed by the two Commanders-in-Chief. We never swerved from that position. At last M. Clemenceau suggested that the question should be examined by the military representatives at Versailles, and that the Versailles Council should decide, if there was any difference of opinion. The military representatives examined the question, and the only interference of the War Cabinet was to this extent—we communicated with the Chief of the Staff, who was in France, and with Sir Douglas Haig, to urge upon them the importance of preparing their case for the other side, so as to make the strongest possible case for the British view.

A COMPROMISE.

The military representatives at Versailles suggested a compromise, but coupled with it recommendations as to the steps which ought to be taken by the French Army to assist the British if they were attacked, and by the British to assist the French if they were attacked, which was even a more urgent question than the extension of the front. (Cheers.) That recommendation came up for discussion at the Versailles Council on February 1st. Before the meeting Sir Douglas Haig and General Pétain met and entered into an agreement as to the extension of the front to Barisey, and Sir Douglas Haig reported that to the Versailles Council, and when the discussion took place there was a further extension of the line. That is the whole story. (Cheers.) How

SIR DOUGLAS HAIG SUPPORTED.

I wish to make it perfectly clear that in the action Sir Douglas Haig took for the extension of the line, he had the cordial approval of the British Cabinet. Having referred to the pressure of the French Government and the military authorities, Sir Douglas Haig had an option except to make the extension, and in our judgment he was absolutely right in the course he took. (Cheers.) Nobody would have preferred not to have done it, but the Government fully approved of the action he took. I want to make that point clear. (Cheers.)

THE REAL LESSON.

I am not sorry that this opportunity has been given to point out the actual conclusion of the War Cabinet, in order to dispose once and for all the rumours which have been circulated by persons in high authority—(cheers)—by men who, for one reason or another, do not like the present Chief of the Staff, or the present Chief of the British Ministry. (Laughter.) The real lesson of the discussion as to the extension of the line is the inconvenience, and the necessity for, unity of command. The discussion would never have arisen if you had not had one commander responsible for one part of the line, and another commander for the other part of the line. Now you have a General Army, one united command, responsible for the whole, and for every part—and I am glad we have it at last. (Cheers.) I was not in favour of a creation of the extension of the line as it was that of the respective massed behind it.

THE QUESTION OF DISCIPLINE.

Before I sit down there are two points upon which I would like to touch. I would like to say something about the effect that such action as that of General Maurice must have on the discipline of the Army. It was a flagrant breach of the King's Regulations. The right hon. gentleman admitted it. I wish he had deprecated it. (Cheers.) I think he ought to. He has been responsible for the conduct of the war for the last three years. If this motion is carried he will again be responsible. (Cheers, and cries of "Oh, no," "Yes," and "Never.") Make your mistake, this is a vote of censure upon the Government. (Cheers.) If carried, the Government could not continue in office, and the right hon. gentleman, as the one responsible for the motion, would, without any doubt, be responsible for the Government. I respectfully suggest, having regard to that position, that he should deprecate the action which General Maurice took. What does it mean? Suppose a regimental officer had a disagreement with his superior about a certain action which would have been said? It would be fatal to discipline. We have in a democratic country a General Maurice saying—"I am a good democrat." We have put before us the example of a democracy which is being humiliated and trampled upon because it has forgotten discipline in the Army. (Cheers.) Is this the time to show such an example by a distinguished officer who has held some of the most confidential positions in the Army? At any rate he ought to have tried everything before he did this. (Cheers.) Before setting such an example of indiscipline he might, first of all, have tried to correct me, and said—

"Would you mind putting this right?" (Cheers.) If I had been obdurate he might have said—"Here I am sitting at the War Cabinet, and in spite of the fact that it is not my position to do it, I will talk here." There would not have been much mischief in that. But he ought at first to have moved his chief to do it before trampling upon the discipline which is the life of the Army. He ought to have exhausted everything else first. Not a word of deprecation of that from our right hon. friend opposite. (Cheers.) Something, Mr. Lloyd George said he had received letters from officers and soldiers repudiating the action of General Maurice, and he quoted a statement from the French newspaper, *Le Libertè*, that "no one in France will understand General Maurice's action." No French party will admit that it is "midst of a war a General on active service should permit himself to raise his voice in public to contradict the Government, and with all respect to this General, what is calculated to diminish the moral of the troops is not that Ministers should in good faith have stated what is not a fact with regard to the extension of the British front, but that a chief, hitherto respected, should have thought it his duty to commit an act of indiscipline so glaring that in our democratic country it would be considered a scandal, and it is not for an officer to seek himself to place his duty as a citizen before his duty as a soldier." That was the view of a democratic country like France. In conclusion, Mr Lloyd George said—These controversies are distracting—(cheers)—or they are paralysing, they are rending, and I do beg now that they should come to an end. (Cheers.) It is difficult enough for Ministers to do their work. There is really a sort of remnant of the controversy which lasted for months over the individual command—unity of command. The national unity is threatened, the Army unity is threatened by this controversy. Days have been occupied in hunting up speeches, letters, private letters, *verbatim*, and in raking up what has happened over a whole twelve months in the War Cabinet, and that is most unseemly. (Cheers.) I have just come back from France. I have visited some of the Generals, and they were telling me now the Germans are actually preparing perhaps their biggest blow of the war in a shroud of mystery. They asked me for certain help. I brought home with me a list of the things which they wanted done. I want to attend to them. I beg, I really beg, for the common cause of the country, the fate of which is in the balance now in the next few weeks—I beg and implore that there should be an end of this sniping. (Loud and prolonged cheers.)

MR. PRINGLE.

MR. PRINGLE, who rose amid cries of "Divide," and "Get on with the war," said that the right hon. gentleman had stated his case, and made an appeal to the House with his accustomed dexterity and irrelevance. The cocoa shops to which he referred were an element which was very grateful and comfortable in the days of the land campaign, and even more grateful and comforting when he had to cross the Irish Channel. The right hon. gentleman was relying on his admired phrasemen, and the fact that Liberals had been pressed that if they supported the Government now they would not be opposed by Unionists at the next general election.

SIR EDWARD CARSON.

SIR EDWARD CARSON appealed to Mr. Asquith not to persist in his proposal. For his own part, he came down to the House determined to vote either against the inquiry by two of His Majesty's judges, or by a Select Committee of the House—hear, hear!—although, on the hint given outside between the two he should prefer an inquiry by a committee rather than that. It should be left to the Government whether the Prime Minister and other Ministers were to be the men or not. He should like training during the winter months and to the plan of operation for next year; and, further, while the primary offensive consideration will not be possible to commence taking over more line. Under these circumstances the War Cabinet fear that until this policy is settled it will be premature to decide finally whether the British front is to be extended by four divisions, or to a greater or lesser extent."

LETTERS TO THE EDITOR.

A MONUMENT.

TO THE EDITOR OF THE IRISH TIMES.

Sir,—Now that Mr. Duke has left Ireland, a suitable and inspiring memorial to his predecessor, Lord Wimborne, would be a statue in the vestibule of the Viceregal Lodge, which he and his predecessors have occupied, and which has been associated with so many events commemorable in his memory.

I suppose a limited group of Mr. Redmond and Mr. Dillon, Lord Dunraven and Sir Horace Plunkett would be appropriate, but the most striking memorial would be one in the ruins of Sackville Street, with the inscription, "Paul planted, Apollos watered, but God gave the increase."

Yours, etc.,

"E. F. H."

May 6th, 1918.

SOUTHERN UNIONISTS AND SETTLEMENT.

TO THE EDITOR OF THE IRISH TIMES.

Sir,—We shall make a statement, in the public interest, of the facts which the Prime Minister, even in the interval, has failed to correct, and the publicity should know that Sir Edward Carson is mistaken in the assumption that he no longer support the action of the Southern Unionist delegates at the Irish Convention. Permit us to say that we consider ourselves entitled to speak for the Ulster Unionists who attended the meetings of the Irish Unionist Alliance last Friday, as well as for those Unionists who know something of Ireland and of various parts of Ireland, who expressed their opinions privately on the same occasion, mark recognise that a vast change has come over the public body to adopt, and although many of us thought wrong, I have not the slightest doubt that on the main question, have to bow to it, and the majority have agreed that they no longer supported the action of those delegates at the Irish Convention, and are more strongly opposed to any form of Home Rule-Sinn Fein government than ever before.

Yours, etc.,

WILLESLEY G. DIFFARD.

Donore, Monkstown, May 8th, 1918.

IRELAND AND RECRUITING.

TO THE EDITOR OF THE IRISH TIMES.

Sir,—I think that another effort at voluntary recruiting should be made before it is too late, and I would make the following suggestions:—

Firstly, start with the Barristers' Library of Ireland, which is full of men of military age. I understand that when a barrister is serving in his country's cause, but the fees go to the man for whom he is paid. It is well that the public should know this. Secondly, those two men sent to the Four Courts to recruit for the Army. These offices are full of men of military age. Thirdly, last the case of the Lord Chief Justice's Bodyguard, the Board of Works, the Registry of Deeds, the Registrar of Titles Office, and the Land Commission Offices—all full of men of military age, receiving Government pay.

An influential Committee should be immediately formed, consisting of the Lord Chief Justice, Lord Ross, the five Catholic Archbishops, the King's Counsel who did not sign the petition against Conscription, Mr. Redmond, Mr. Dillon, Mr. Devlin, Mr. Joseph Nolan, Mr. T. M. Healy, K.C., Mr. J. E. Walsh, M.P., Mr. J. H. Bloid
